# EAMCET TESTRUNNER

# Overview

- EAMCET TestRunner simulates the EAMCET model test for practice.
- This has about 30000 questions in Maths, Physics and Chemistry for Engineering.
- This has about 40000 questions in Botany, Zoology, Physics and Chemistry for Medicine.
- EAMCET TestRunner gives performance analysis of the test taken which will help user strategize the preparation to achieve success.
- EAMCET TestRunner helps the user to review the test taken in many ways.

# EAMCET TestRunner Features

- Model test
- Practice test
- Weak area test
- Report

# Model Test Benefits

- This is a simulated test with questions from all the subjects
- There is an option to take model test subject wise also
- Benefit is user gets to know the weak areas of preparation immediately after the test
- Weak areas are displayed automatically after the test by comparing the score in each chapter with average score in the test

# Practice Test Benefits

- User can take a test as per the need
- Test can be subject wise or chapter wise
- Number of questions and time is fixed by the user
- Benefit is user can take a test in the chapter as soon as the preparation on that chapter is completed
- Identify strong and weak areas to strategize the preparation

# Weak Area Tests

- User can take a test in the identified weak areas subject wise or chapter wise
- Benefit is user need not search for the weak areas and take a test in them, software remembers it for the user
- Identify the weak areas and improve on them
- Consolidation of strengths and improving the weak areas is the success mantra

# Reports

- User can revisit the test by reviewing wrong answered questions, un-attempted questions and questions where the time spent is more than expected time
- Graphical reports show the strong areas, weak areas
- Graphically analyze how is the improvement attempt wise

# 7 Steps to Success in EAMCET Using TestRunner

1. Take a model test
2. Identify the strong and weak areas
3. Prepare well in weak areas
4. Take a test in the weak areas subject wise and chapter wise
5. Take practice test for subjects prepared
6. Repeat again from model test and see the improvement
7. Do this process as many times as possible

# System Requirements

- PC with PIV processor or above
- With a minimum hard disk space of 500 MB in C drive and 128 MB or above RAM
- 14" color monitor or above
- CD Drive
- MS Windows or above operating system

# Pricing

- Product is delivered on a CD and it is priced at Rs. 499 in India, inclusive of all taxes

# Availability

- Product is available in all leading book stalls and CD Vendors
- You can also download the product from our website
- Payment may be made through our website [speedmath.in](http://speedmath.in)
- You may write to [orders@speedmath.in](mailto:orders@speedmath.in) or [orders@sdktechnologies.com](mailto:orders@sdktechnologies.com)

# Disclaimer

- EAMCET is the entrance conducted for the admission into medical and engineering colleges in Andhra Pradesh and we claim no connection with them.
- This is not an official product and we acknowledge all copyrights of the respective owners
